

Sensor SB-12

DESCRIPTION:

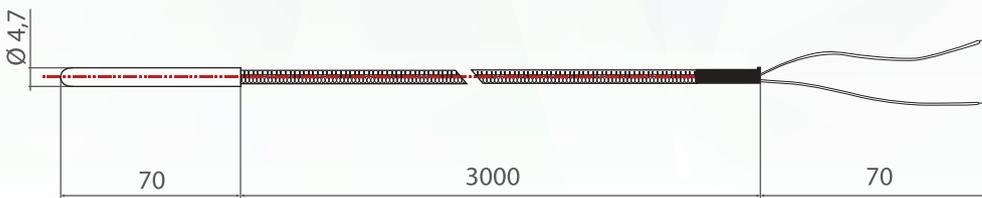

That range sensor assembled with two metalloys (iron and constantan) for measuring temperatures from 0°C and 350°C (32°F and 622 °F).

COMPATIBLE INSTRUMENTS:

- MT-622E
- TO-711F
- TO-712F
- TO-741B
- TO-711B
- TO-712B
- TO-721B
- TO-761B

**Some models controls temperatures up to 600°C (1112°F).*

DIMENSIONS*:

*Unit in mm

CABLE COLOR:
Metal Braided

CABLE TYPE:
Locked

CAPSULE TYPE:
Stainless steel

MORE INFORMATION:

- **Sensor:** Thermocouple "J" type
- **Precision class:** Standard \pm
- **Error limit:** Conforming to ASTM E-230
- **Simple:** Yes
- **Connection type:** 2 wires
- **Pressure gauge:** 24 AWG
- **Isulation:** Fiberglass with tinned copper braid
- **Maximum cable temperature:** 350 °C
